

Expressway Renewal Project Large-scale Renewal and Repair Project

E58 Okinawa Expressway Renewal Construction

Ginoza IC ↔ Kyoda IC

2027 1/6 Wed. ▶ 3/31 Wed.

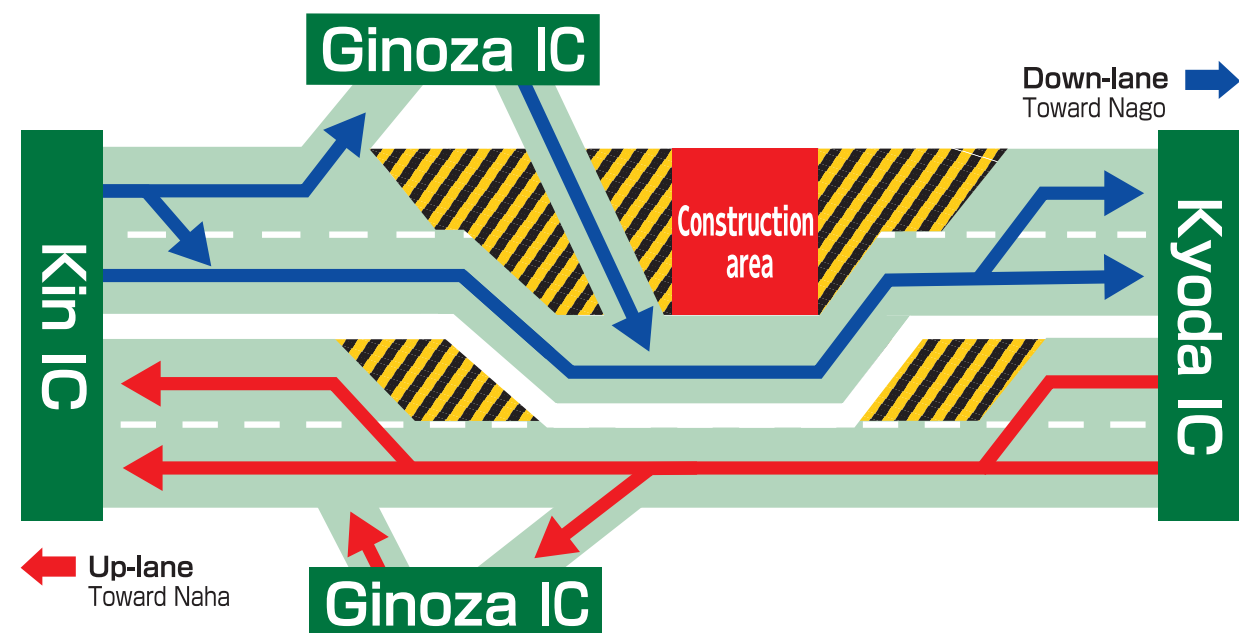

All day two-way traffic restrictions

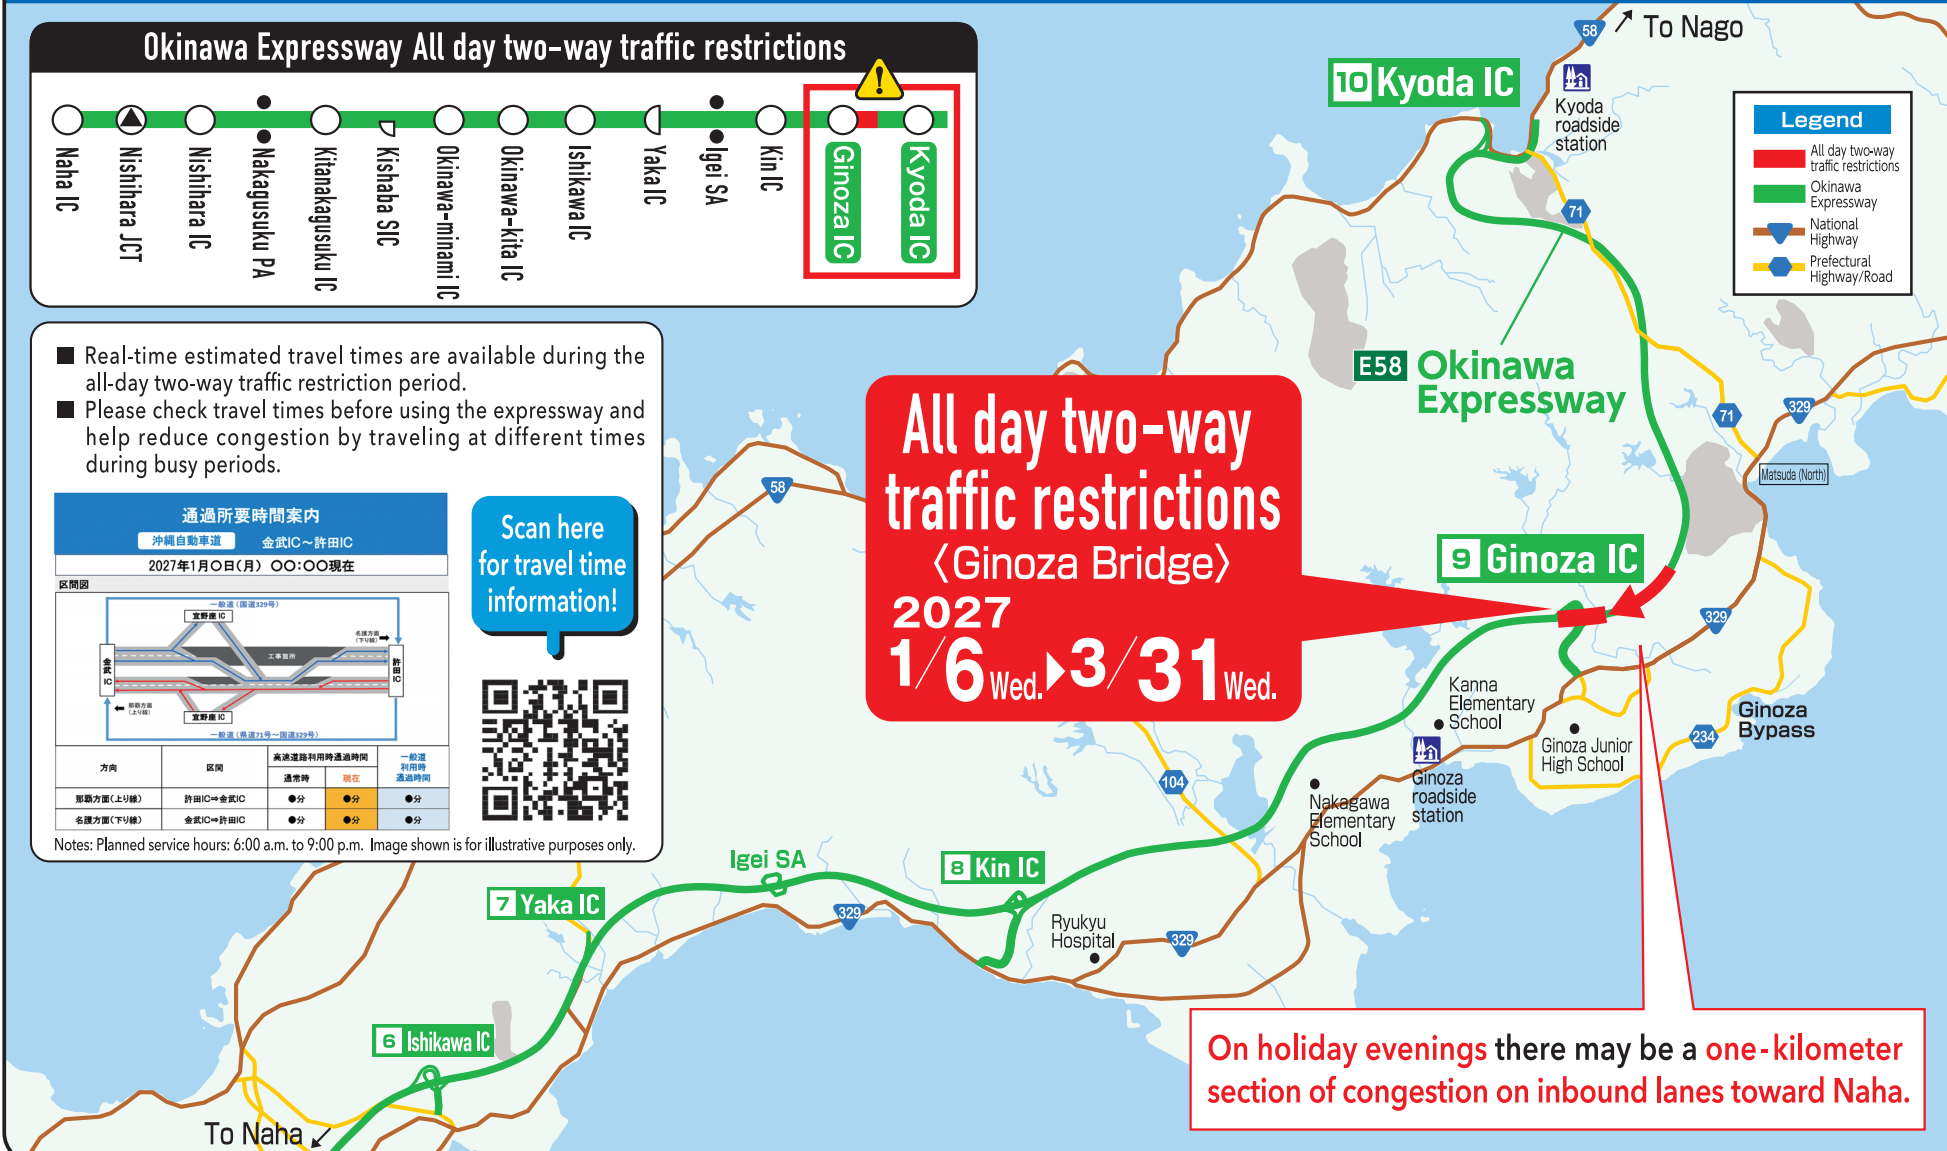

だいきぼうくん

All day two-way traffic restrictions details

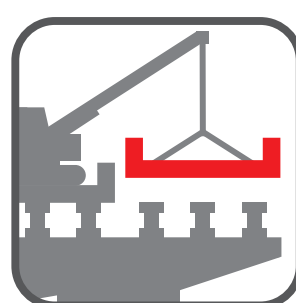

Up-lanes and down-lanes (4 lanes) will become 2 lanes (two-way traffic). Slab replacement will be undertaken.

Traffic congestion forecast period

Details of Bridge-Slab Replacement Construction

The damaged reinforced concrete floor slabs are replaced with more durable ones. (Prestressed concrete slabs)

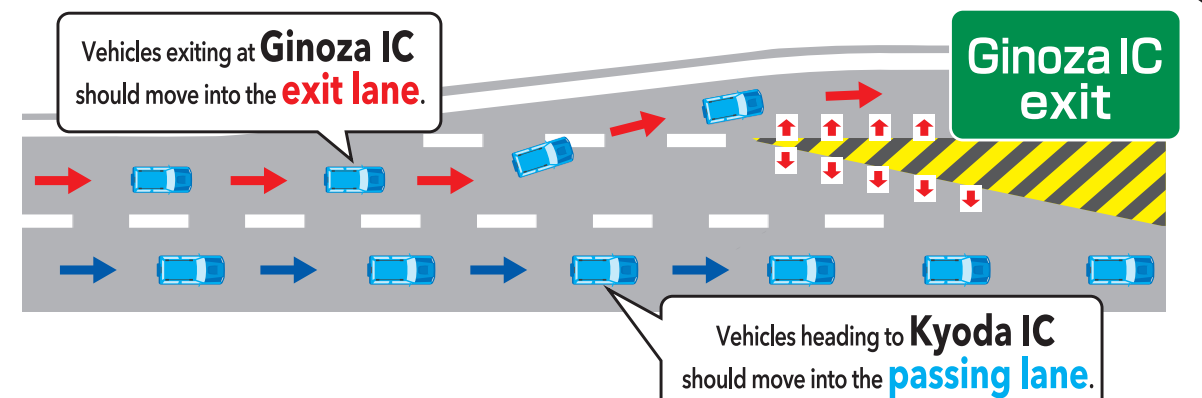

Installation status of new floor slabs

Bridge (Slab Replacement)

The pavement surface will be temporarily removed in order to replace the damaged slabs. The installation of the factory-made slabs followed by paving will complete the slab replacement. For this reason, traffic restrictions will be lifted after the slab replacement and paving are completed.

For users of outbound lanes toward Nago Please drive safely

Traffic exiting Ginoza IC should move into the exit lane.
Traffic continuing to Kyoda IC should move into the passing lane.
Forcing your way into the lane just before the fork is extremely dangerous.
Please change lanes well in advance.
